Contractor

# Past Performance: Federal Projects

**Jet Propulsion Laboratory Flight Projects Center** - This building was constructed at Jet Propulsion Laboratory in Pasadena California. The facility is managed by Caltech for NASA. BEST metal division installed the exterior walls of this new building using aluminum composite panels. The Roofing Division of BEST also installed the new 72 mil thick white reflective Sarnafil PVC roofing system.

**Otay Mesa Customhouse**- This eight sided building located near San Diego at the Mexican Border was reroofed by BEST using a Weatherweld Roofing System. Weatherweld is a cold process sprayed in place system which results in a seamless, monolithic and waterproof roof. After the roof installation, solar BIPV was installed providing supplemental electric power to the facility.

## Federal Projects (Partial List)

- JPL Flight Projects Center - \$2,656,320
- Otay Mesa Customs House - \$259,860
- Armed Force Reserve Center - \$853,330
- Fort Irwin - \$236,152
- USPS Glendale - \$155,672
- USPS La Canada Flintridge - \$168,134
- Sherman Indian HS - \$139,990
- NOAA La Jolla - \$1,085,000
- Vandenberg AFB - \$280,900
