### INTENDED USE:

Any dog-pulling activity such as skijoring, mountainboard-joring, skatejoring, bikejoring, or canicross. Enjoy joring all year long in any climate conditions.

### Dog Harness:

- Canine-specific design engineered to comfortably utilize dog pulling action
- Three sizes and five points of adjustability provide a customized fit
- Strategic padding keeps dog comfortable while pulling
- Integrated top-handle provides lifting assistance
- Replaceable perlon cord tow loop attachment point for system longevity
- Reflective trim for low-light visibility and light loop for attaching The Beacon™

DOG'S GIRTH  
measurement around  
widest part of rib cage

S

21-30"  
(53-76 cm)

M

26-36"  
(66-91 cm)

L

32-48"  
(81-123 cm)

### KEY FEATURES:

- Complete joring system features dog harness, human hipbelt and towline
- Components are designed to work together to maximize comfort and enjoyment

### Towline

- Shock-absorbing material is engineered to minimize bounce
- Anodized aluminum, Ruff Wear-designed Talon Clip™ provides a quick, easy and secure attachment to the harness tow loop
- Two handles for maximum control
- Color-coded ends easily identify attachment location
- International race regulation length
- One size

### Human Hipbelt

- Comfortable, lightweight, low-profile connection to the towline
- Tow bridle allows for 180 degrees of tow direction for use in multiple joring activities
- Intuitive towline release offers quick disconnect from towline when needed
- Color-coded ends easily identify attachment location
- Two zippered pockets with integrated key clip to hold basic necessities
- Integrated water bottle holder fits standard bike bottles
- Leg loops keep hipbelt in place (can be removed)
- One size fits human waist sizes: 27" – 48" (68-123 cm)
