

## Easy And Affordable Barcode Generator From Barcodelelabelpro.com For Any Size Business

*Accu2000 Barcode label design and printing software is designed for easy use by business owners and managers so that any size business can gain the benefits of a customized barcode system. Free offer is available at [www.barcodelelabelpro.com](http://www.barcodelelabelpro.com)*

**BarcodeLabelPro.com** (<http://www.barcodelelabelpro.com>) announces the free offer of barcode generating software, Accu2000 Barcode Generator at [www.barcodelelabelpro.com](http://www.barcodelelabelpro.com) that allows users to get the 1-D version barcode maker at \$0 cost when they check out through TrialPay offer.

*"In a down economy, companies need to streamline and increase efficiency, so they can be more productive with every minute and every dollar." said Dr. Ge, the founder of barcodelelabelpro.com. "Accu2000 barcode generator is easy-to-use and flexible. We hope this free offer will put customized barcode system within reach of any size business."*

**Accu2000 Barcode Generator** supports most commonly used 1-d and 2-d barcode symbologies, including Coda bar, Code11, Code128, Code39, Code39Ext, Code93, Code93Ext, Ean13, Ean8, Industrial2of5, Interleaved2of5, UccEan128, MSI, Postnet, Planet, Telepen, UpcA, UpcE, IntelligentMail, Sccc18, Scc14, Itf14, PDF417, MacroPDF417, DataMatrix and QR Code.

Now even the smallest of businesses can benefits of a customized barcode system, including improved inventory control and document management, customized tag ID and product packaging, identifying purchasing trends, reducing human error, and easier shipment tracking.

The main features of Accu2000 barcode software includes:

- Support for more than 26 of the most commonly used 1-D and 2-D barcode symbologies (A complete list of compatible barcode symbologies can be found online at [www.barcodelelabelpro.com](http://www.barcodelelabelpro.com))  
Ability to design and print labels with barcodes, numbers, text, images and lines
- Compatibility with a wide range of database platforms, including SQL, Oracle, Access, Excel, XML, CSV and more
- Exporting label designs to most image formats, including .bmp, .jpg, .gif, .png, .ico, and more for easier package and label design

- Compatibility with most printers on the market, ranging from ink jet and laser printers to thermal printers and continuous page printers

- Predefined label templates for most label manufacturers, including Avery, PIMACO, Herma, Zweckform and more

Yet, despite its many powerful and flexible features, Accu2000 Barcode is simple enough for anyone to use. It's intuitive WYSIWYG (What You See Is What You Get) interface requires no training and no learning curve, making it accessible to any business owner or manager. Users do not need an IT professional or database expert to implement Accu2000 Barcode, making it ideal for small businesses that don't have such personnel on their payroll.

Companies who need to integrate Accu2000 Barcode with other programs and applications can also purchase Accu200 Barcode Component. Developers can use Accu2000 Barcode Component to integrate Accu2000 Barcode's user-friendly barcode generating features with their existing software for complete customization. Accu2000 Barcode Component is available in .NET assemblies for use with both Windows Forms Applications and asp.net.
