

HOW SHARED MALL WORKS

**Fully Automated
and Free to Use**

Sellers

List goods and services and manage product availability for pickup and delivery by location, date, time, etc.

Buyers

Search for products by zipcode, date, etc., select pickup or delivery date and time, add to cart, and submit order.

SharedMall

Updates inventory, emails invoice, and schedules the order for pickup/delivery on seller's calendar.

Buyers and Sellers

Meet in person at the scheduled date and time to exchange the ordered goods or services for payment.
