Access Dashboards.

In addition to reports, Mobile Launch serves all of your dashboards. You have complete drill down capabilities on all of your graphs and charts, providing further analysis of your data.

Zero Configuration.

The Mobile Launch platform integrates natively with the LaunchWorks LaunchPortal. In addition to industry leading multi-tenancy, bursting, access and authorization controls, Mobile Launch requires no additional configuration. You do not need to design special reports to serve business intelligence to your enterprise mobile devices.
