XSOLLA: LOCALIZED IN-GAME PAYMENT SOLUTIONS FOR GLOBAL REACH

Xsolla Specializes in Online Games, Providing Localized In-Game Payment Solutions for Global Reach.

Xsolla has been developing monetization tools for MMO, social, mobile & casual games for 6 years. Xsolla's headquarters are in Los Angeles, CA with offices in Russia, Ukraine and Belarus. Xsolla partners with over 200 payment service providers -all within one platform- with no installation, currency exchange or chargeback fees.

What Makes Xsolla Different?

Global Coverage: Over 200 Payment Service Providers In Over 74 Countries- Now You Can Accept Credit & Pre-Paid Cards, Direct Debit, Cash/E-Cash, E-Wallets, Mobile Payments & More! Earn more revenue with Xsolla- we know what payment methods work in each region..

Easy & Secure Payments: Players from the U.S., Europe, Canada, Africa, MENA Countries and Asia can choose from a variety of popular (as well as more unique) payment options that are specifically chosen for their region & regional payment habits

Powerful Analytics: Xsolla provides publishers and developers with extended data to help them increase their payment conversion rate. Graphs, charts and diagrams show you everything you need to know about your players' payment habits, regions that monetize the best, average check, completed transactions & more

Introducing Direct Payment™

Getting Paid Just Got Easier with Xsolla's Direct Payment.™
Now you can reduce the number of clicks required from players to **increase your payment conversion rate** with Xsolla's Direct Payment, which allows you to redirect the player from your in-game store straight to the payment option checkout page, where all the player has to do is authorize and confirm the payment. No extra information to enter, no extra pages to visit- **A direct link is generated for easy copy and paste integration.**
