

We Protect Your Mattress

## Introducing the NiteSafe™ Sleep System

### NiteSafe™ Sleep System Brings You Peace of Mind All Night

Protect yourself from bed bugs all night with NiteSafe™ Sleep System from Mattress Safe®. NiteSafe™ offers you protection from bed bugs during an infestation and throughout a treatment program.

#### Features of NiteSafe™

- Bed Bug Certified and Bite Proof
- Provides Immediate Relief Against Bed Bug Bites at Infested Locations
- Lightweight and Easy to Use
- Portable and Great for Travel – To Be Used Indoors Only

NiteSafe™ is constructed of certified materials that bed bugs cannot enter or bite through. Together with a bed bug certified zipper enclosure, our specialized design ensures complete protection throughout the night.

NiteSafe™ should be used in conjunction with Mattress Safe® bed bug certified mattress and box spring encasements.

By following NiteSafe™ usage instructions in conjunction with proper pest management protocol, NiteSafe™ will increase your security for a bite free night. Mattress Safe® cannot guarantee a 100% bed bug free environment. NiteSafe™ may be laundered or tumbled in the dryer each morning to ensure that it is bed bug free and ready for the next good night's sleep.

#### Available Sizes:

Single - 36" W x 80" L x 48" H

Double - 50" W x 80" L x 48" H
