TIME ROVERS GO LIVE

Live call-in show to discuss Disney Parks Past, Present & Future

ANAHEIM - On Thursday, October 20th, 2011, MAGIC 24.7 will take to the airwaves live for the first-ever edition of Time Rovers.

The new weekly one-hour program will pay tribute to the Disney Company's past, present and future. Throughout the program, the MAGICLINE - (424) 270-1955 - will be open for listeners to call in and join the discussion.

"The key to this show is interaction", said Chris Reid, MAGIC 24.7 program director and co-host of Time Rovers. "We're going to take listeners calls, and bring them in on the conversation. This program will never be a show hogged by its hosts...we want to get listeners as involved as possible. With discussion about Disney Parks past, present and future, there is always something listeners will be able to bring to the table."

The addition of a new show also means the addition of a personality to MAGIC 24.7 airwaves. Reid Davenport (@[MstrFantastic](#) on Twitter) has stepped up to the plate and will co-host Time Rovers. Davenport will bring his Disney Park knowledge and expertise to the table on Time Rovers and is happy to be part of the team.

For the first edition of Time Rovers (7pm Pacific/10pm Eastern) will feature the topics:

Past: What attraction would you bring back to life?

Present: Is Disney expanding too much too fast now?

Future: Avatar Land in Animal Kingdom. AND: Marvel characters in the parks - how should Marvel be added to Disney Parks & why hasn't it been added thus far (beyond merchandise)?

Join MAGIC 24.7 for interactive discussion, and possibly some special guests, too.
