

Clearwater HIPAA Audit Prep Workshops™

Prepared for the HIPAA audits? Clearwater takes out the guesswork.

The Problem

The Office for Civil Rights has hired KPMG to complete the initial round of HITECH-mandated audits to assess compliance with the HIPAA Privacy and Security Final Rules and Breach Notification Rule by December 2012. Audits will begin soon. Most organizations are not ready and lack the skills and time to properly prepare.

The Solution

A Clearwater HIPAA Audit Preparation Workshop. Our proven approach can be as comprehensive as you desire covering HIPAA Privacy, HIPAA Security and HITECH Breach Notifications regulations. We simulate the planned audit process and deliver a Findings, Observations and Corrective Action Plan report. We empower your organization to address issues immediately and demonstrate a good faith effort at compliance.

The Clearwater HIPAA Audit Prep Process

Preparation

- Plan/Gather
- Read Ahead
- Complete QuickScreen™

Onsite Assessment

- Facilitate
- Educate
- Evaluate

Written Report

- Findings
- Observations
- Corrective Action Plan

Audit Solutions

Clearwater provides Audit Prep Workshops for every aspect of HIPAA and HITECH:

- Privacy Final Rule
- Security Final Rule
- Breach Notification Interim Final Rule

The [Clearwater Audit Prep Workshops™](#) include these comprehensive features:

- Simulation of KPMG onsite audits
- Completion of explicit HIPAA Security Evaluation
- Completion of a HIPAA Security Risk Analysis

- Availability of Privacy, Security and Breach Notification Policy and Procedures templates

How you will benefit

Receive high quality, credible assessments and action plans to address your gaps:

- Meet face to face with the industry's top experts and obtain their engagement in *your* compliance program
- Jump-start or revitalize your overall compliance program
- Quickly address PHI risks and prevent costly loss of reputation and customers
- Equip your staff with the essential education and experience to inject a HIPAA "Culture of Compliance" into the fiber of your organization
- Reduce the confusion and guesswork of complying with the law while allowing your staff to focus their efforts on critical clinical and business objectives
- Prevent the legal and reputational costs of a failed Audit

Its complicated... we can help

"... The WorkShop™ process expedited assessment of gaps in our HIPAA Security Compliance program, began to address risk mitigation tasks within a matter of days and... the 'ToolKit' was a sound investment for the company, and I can't think of a better framework upon which to launch compliance efforts." – VP & CIO, national care management organization
