

# OVERWHELMED BY OCS EXAM STUDYING?

**EIM will help you sort through the challenges of studying for the OCS Exam in the following ways:**

- Ensuring that your effort is focused on the content that the test covers.
- Making sure that your studying is efficient – every hour counts.
- Helping you identify weaknesses and quickly find the information you need.
- You will not only BE prepared, but you will FEEL prepared, so that you will be truly confident walking into the exam.

## **EIM's OCS Prep Course:**

- Online
- Earn 30 continuing education hours (depending on the state in which you practice)
- 8 week recommended schedule of study included, but the course is available to you until the OCS test date in March 2012
- Study at your own pace– you decide when to put in the time to prepare
- Starts by customizing areas needing special attention with a pre-test
- Focuses on a specific region of the body each week
- Additional Evidence Based Practice and General Orthopaedic Topics sections included
- Ends with a post-test designed to mirror the actual OCS exam
