Failsafe Payments Solutions

Complete Solutions for Merchants

Failsafe Payments Europe Ltd was established in 2007 by a very experienced team within the international e-payment business with the sole ambition to create and develop affordable payment solutions for merchants that want to sell their goods or services online.

Why choose Failsafe Payments?

If you want to work with a billing company that offers multiple payment solutions for your business, has fast and dedicated support, doesn't sneak in hidden fees, can accept most business categories, has banks and partners around the world, offering 3-D Secure and integrated fraud scrubbing and much more then we are the right partner for you.

If not, we suggest you look elsewhere for your payment needs.

Services

Merchant Accounts

Get card processing solutions for your online business. Accept most major credit and debit cards. Multicurrency and Virtual Terminal solutions are available.

Accept ACH & eChecks

Tap into the vast U.S market and reach millions of potential customers by accepting ACH/eChecks. This direct debit solution covers almost everyone that has a bank account in the United States. Virtual Terminal solutions are available.

Payment Gateway

When applying for payment solutions via Failsafe Payments you receive a fully PCI DSS level 1 certified payment gateway to process your transactions safely and securely.

3-D Secure

Includes MasterCard SecureCode, Visa`s Verified by Visa and JCB`s J/Secure which is an added layer of security for both the consumer and the merchant. We have our very own MPI software to support 3-D Secure transactions, and we can offer 3-D Secure services as a standalone product.

Fraud Scrubbing

Failsafe Payments has several fraud scrubbing services integrated such as Retail Decisions (ReD), MaxMind, G2 LLC and iovation for added security to ensure that the transactions and buyers are genuine to avoid costly chargebacks.

Reporting

Failsafe Payments offers merchants full reporting features and timely payments.
