

SUSTAINABLE LEATHER FASHION: Floors and Walls

ABOUT US

EcoDomo LLC develops and designs unique “eco-friendly” luxurious architectural details. EcoDomo was initiated in 2005 in response to the need for high-end ecological and renewable products. EcoDomo’s first collection on the market consisted of recycled leather tiles. We are experts with leather surfacing—recycled and hide leather applied to a variety of substrates and formats. We have since expanded our lines to include a collection of interlocking planks, decorative borders and cork, as well as several custom design options.

As a proud member of the United States Green Building Council, EcoDomo uses a “triple bottom line” approach to business—its products must exceed market demands, contribute to the environment and to the communities where the products are produced.

We are located in Rockville, Maryland and we are supported by a select team of sales representatives and dealers nationwide. We pride ourselves in being a “boring” business partner—we are careful about what we promise and make sure we deliver—making it easy for our clients to work with us. This simple approach has helped us win the business from many clients, including Starbucks® Coffee Company, Bank of America, Crowne Plaza® and InterContinental® Hotels and Resorts, Whole Foods® Market, and a variety of commercial and residential clients for applications ranging from staircases to yachts to entire building lobbies. Visit www.EcoDomo.com.

TABER ABRASION TEST FOR FLOORING — VISUAL RESULTS

LINOLEUM

RECYCLED LEATHER

QUESTION: How will my leather floor wear?

HONEST ANSWER: Your recycled leather floor with wear in a manner similar to cork, linoleum, or hardwood floor!

Our recycled leather tiles have a wear resistance to friction comparable to linoleum or cork. EcoDomo's Recycled Leather tiles are the result of extensive research and development to improve the performance, ease of installation, and maintenance of leather tiles. Our recycled leather tiles are suitable for light-commercial and residential applications in all areas of the home except for wet areas and below-grade installations.

TESTIMONIALS

"Your leather floor looks gorgeous, even after approximately 80,000 people walked through our installation"

— Professor Pliny Fisk, Texas A+M

"It looks awesome and it's been four years..."

— Debbie, Office Manager

"We love our floor and are amazed at how well it's worn in spite of the ski boots and all our visitors..."

— Fiona, Owner

"Our leather floor? It's awesome and our clients love it"

— Tomas, Hotel Manager

Still not sure? See recent installation videos and pictures on [facebook/ecodomo](https://www.facebook.com/ecodomo) or visit www.ecodomo.com

RECYCLED LEATHER LINES

EcoDomo recycled leather is made from pulverized leather fibers extracted from leather car seat manufacturers and tanneries. Exceptional combination of elegance, sustainability, and durability for floors and walls. Stocked & suitable and proven in commercial, institutional, and residential.

Echelon Collection—Glue Down Tiles and Sheets

- Floors/Walls
- Extensive Custom Options
- 16 sizes & 10 colors available—up to 55" x 39" x 1/8"

Rainforest Collection—Floating Recycled Leather Floors

- Available in planks 7.5" x 45" or tiles 15" x 15" x 3/8"
- Repositionable floors with Uniclic® joint guaranteed integrity
- 5 / 25 commercial / residential warranty

TOP-GRAIN LEATHERS

Top-grain hide leather tiles for floors and walls made from specialty areas of premium hides. Unique patina and inherent character will develop over time with the tiles. Suitable for exclusive commercial and residential applications. Available and easily customized for your projects.

Milano Collection

- Resilient hide leather tiles suitable for floors and walls
- Traditional antique deep-dye process for durability
- Floors and walls - 16 sizes & unlimited color selection

Cordova Collection

- Supple hide leather mixed with a recycled backing
- Suitable for walls, moldings, panels or area rugs
- Available with stocked hide leathers or your preferred hides

CUSTOM OPTIONS

EcoDomo develops creative leather surfacing solutions and finishes for clients and projects. We have exclusive techniques and artisans to develop luxurious and functional architectural pieces. Casino feature walls, restaurants, stair cases, seamless wall tiles, Hermes® orange hide floor tiles, ceilings, high-traffic furniture and worldwide applications of custom solutions—the EcoDomo team looks forward to working with your project.
