

Mobilize your workforce.

Get things done anywhere!

Tablets have entered the workforce, and your employees are no longer tethered to a traditional office environment. However, your employees still need access to, or even share, their usual business applications and files. This is where Splashtop Pro comes in.

Why Splashtop Pro?

Get all the benefits of our #1 remote desktop app

- + Centralized web-based user management
- + Flexible resource management
- + Enhanced security

Splashtop Remote Desktop

The must-have app to bring your entire computer experience to your mobile devices with exceptional audio and video

#1 iPad app in 20+ countries

#1 iPad business app in 60+ countries

4.5+ star average rating 

Who is it for?

- *Field sales reps* needing access to their company's internal CRM system or other pricing and inventory info
- *Real estate agents* wanting to adjust their schedules without going back to the office
- *Telecommuters* working from home and remoting in to the office computer over VPN
- *Designers* looking to impress their clients when presenting
- *Healthcare professionals* seeking easy access to patient EMR to explain findings interactively
- *Franchise owners* sharing marketing or other useful info with branches
- *Restaurant managers* using mobile devices for inputting orders
- *Any business that wants their team members to be productive no matter where they are!*
