

Petroleum Industry

AFT Fasteners offers a wide variety of products for the Petrochemical Industry. Most hardware for this industry requires heavy duty components with larger sizes, higher safety specifications, higher operating tolerances and guaranteed longer life expectancies - such as:

- **Studs and Bolts** - petrochemical grades, stainless steel grades, titanium and exotic alloys: (Nickel, Monel, Inconel, Incoloy, Nimonic, Hastelloy), threaded rod, low carbon, heavy hex bolts
- **Nuts** - heavy hex, all materials and grades, industrial electroplatings and specialty coatings
- **In-House B7 Stud Cutting & Machining** - AFT offers great savings on these inventoried items.
- **Flanges** - lap joint, welding neck, slip on, socket weld and threaded
- **Pipes, Valves & Fittings** - Pipes, supports, markers, labels, nipples and fittings, stainless valves
- **Gaskets** - spiral wound, Flexitallic, composite materials/fibers and matching industrial sets
- **Washers** - all types of finishes and metal materials
- **Special Platings & Coatings** - Xylan, Teflon, Cadmium, E-Nickel, Zinc, Zinc Nickel, Nickel & more
