Art Prints Find a New Home at TheArtMenu.com

The Art Menu is dedicated to local artists and beautiful giclée art prints on canvas. Artists are encouraged to submit their portfolios of fine art.

Dallas, TX – The Art Menu has recently launched their website that makes it easier than ever to browse, discover and purchase great giclée prints on canvas, art prints and more.

The Art Menu provides a much-needed service for artists and the artistic community at large. They first discover exceptional creative talent originating in the local area. Through a highly selective process, the team then chooses artists to help publicize. The works of these artists then become available to the larger artistic community in the form of limited edition giclée art prints and canvas prints. The Art Menu's fine art on canvas lets the artist continue creating great works of art, without the hassle of reproducing their own canvas prints.

The website offers high quality giclée [art prints](#) of original works. The fine art prints can be ordered in several different sizes, with or without framing. The giclée art prints assure a high level of quality in the reproductions. The giclée process requires the original art on canvas to be professionally scanned and digitized. Then with modern day technology, unique colors, details, and higher resolution can be transferred to the art prints on canvas.

"Our website helps artists put their work out into the public eye," said Taylor Stensrud, Online Marketing Director at The Art Menu. "People from around the country can browse the finest artists and purchase unique art prints on canvas."

Call to Artists

The Art Menu is looking for and reviewing new artistic talent in several major markets across the United States. Artists that believe they may be a fit for their online art gallery should be willing to submit their art portfolio, artist's resume, and artist statement for an initial review by their Advisory Board. Artists who wish to submit their portfolio of art can visit the [call to artists](#) page on the website to learn more information about the submission process.

About The Art Menu

The Art Menu, located in Dallas, TX, is committed to bringing the superb artistic talent found in the local area to the world. Taking original prints on canvas, the company produces high-quality giclée art prints, available for purchase in limited numbers. Visitors to website can browse these limited edition prints and make purchases in a secure digital environment. With shipping available around the US, The Art Menu takes the great art found in Dallas nationwide.
