

Mobile Media Cart

The Mobile Media Cart (MMC) has been designed by educators for education, combining complete audio/visual solutions for any teaching environment, such as media centers, portable classrooms, non-standard classrooms, cafeterias, conference rooms, gymnasiums, and more.

The MMC is constructed from steel with locking casters, which allow easy mobility to move from room to room while providing a secure location for A/V equipment.

The cart features rounded edges, a smooth work surface, additional pull-out surfaces, a large storage drawer, and a unique locking system to secure all equipment.

*A/V Equipment not included.
