MVP Systems Software Joins Oracle PartnerNetwork

9 November 2011 – MVP Systems Software, Inc. today announced that it has signed on as an Oracle Gold Partner as part of the Oracle PartnerNetwork (OPN). By attaining Gold Level membership, MVP Systems Software, Inc. is committed to establishing Oracle related expertise and excellence needed to deliver JAMS, MVP's enterprise job scheduling system, to Oracle users worldwide.

"Attaining the Gold Level membership is a result of our efforts to work with Oracle," said Harry Reisenleiter, VP at MVP Systems Software, Inc. "We value strong partnerships with companies such as Oracle because they empower us to provide superior solutions like JAMS Job Scheduler."

With its Gold Partner status, MVP Systems Software receives the benefit of being able to start developing adaptors for Oracle EBS, allowing MVP to grow its JAMS Job Scheduler customer base, to increase its expertise in Oracle, and to create differentiation in the marketplace. Gold members also become eligible to resell all Oracle Technology products and can apply to resell Oracle Applications and Industry Solutions.

For more information about the benefits of becoming an Oracle Gold level partner, please visit: oracle.com/us/partnerships/index.htm.

About Oracle PartnerNetwork

Oracle PartnerNetwork (OPN) Specialized is the latest version of Oracle's partner program that provides partners with tools to better develop, sell and implement Oracle solutions. OPN Specialized offers resources to train and support specialized knowledge of Oracle products and solutions and has evolved to recognize Oracle's growing product portfolio, partner base and business opportunity. Key to the latest enhancements to OPN is the ability for partners to differentiate through certified Specializations. Specializations are achieved through competency development, business results, expertise and proven success. For more information, visit oracle.com/partners.

About JAMS (Job Access and Management System)

JAMS is the only job scheduling system built on a .NET framework and is the first enterprise job scheduling system that can be leveraged by both IT Operations Personnel and Application Developers. With its roots in Windows, JAMS also supports running processes across a variety of operating systems (UNIX, Linux, System i, OpenVMS, etc.) and applications (SAP, SQL, Oracle, PeopleSoft, Symitar, Ecometry, etc.) To learn more about JAMS, please visit www.JAMSScheduler.com or call 800-261-JAMS.
