**LUX by Mighty Bright**, a line of smart, versatile and energy-efficient LED task lights. Streamlined and sophisticated, **LUX LED Task Lights** are functional, eco-friendly, and embody a simple aesthetic elegance, compromising neither form nor function. The LUX lights—**LUX Bar and LUX Dome**—provide accent and essential lighting for use in homes, hotels, offices, workshops, and industry.

*LUX--simply bright*

### A LUX Light for You

Pick a LUX light that's right for you. LUX Dome has a 360-degree swivel head, while LUX Bar adjusts up or down, left or right, and swivels to 180-degrees. Plus, LUX Bar can be used freestanding on a desk, or clamped to a workbench. LUX Dome and LUX Bar are solidly constructed of metal components and available in a selection of sophisticated finishes: LUX Dome in flat black, turquoise, chartreuse green, and brushed nickel; LUX Bar comes in a modern brushed aluminum.

### The Evolution of Task Lights

Taking advantage of recent developments in solid-state lighting technology, LUX by Mighty Bright provides ample brightness and energy-efficiency. The durable high brightness LEDs produce 250 lumens and a pleasing cool white (4000 Kelvin) light for up to 50,000 hours of continuous illumination. These lights will provide years of reliable service and never require bulb replacement. With LUX we have successfully transitioned from bulky, energy-consuming incandescent lighting and fragile, toxic fluorescent lighting to next generation LED task lights at accessible prices.

	Lumens	Color Temperature	Color Rendering	Efficiency (lm/W)	Power (W)	Input Voltage
<b>LUXDOME</b>	250	4000	85	40	6.5	100-240
<b>LUXBAR</b>	250	4000	85	40	6.5	100-240

### Cool Light, Green Footprint

LUX LED Task Lights by Mighty Bright are the perfect replacement for both incandescent lights that waste energy in the form of heat, and for fluorescent (CFL) lights, which contain toxic mercury vapor and require expensive replacement bulbs.

Choose from one of two base styles for your specific lighting needs.

### LUX LED Task Lights by Mighty Bright:

- Simple, classic, timeless design
- Bright, efficient LEDs produce 250 lumens
- Estimated 50,000 hours of continuous life
- Pleasant 4000 Kelvin white light
- Robust construction—built to last
- Colors:
  - LUX Bar: Aluminum
  - LUX Dome: flat black, turquoise, chartreuse green, brushed nickel
- Flicker-free
- Material:
  - LUX Bar: Aluminum
  - LUX Dome: Steel
- Light Area: 36" diameter
- Free standing or Clamp-on version
- Packaging material: Corrugate
- Made in China

LUX Bar: MSRP \$99.99

LUX Dome: MSRP \$79.99
