-  **Severin Schwan** | *Hoffman-La Roche* Lorem ipsum dolor sit amet, facilisis nec dignissim,

Need some suggestions? Select from some common needs below:

- I need 2 CEs by year-end 2011 and I would like them related to the therapeutic use of birth control in dermatology.
- Patient information regarding capecitabine and pillboxes.
- Calendars for patients to track treatment days.
- Copay assistance programs for expensive oral chemos
- Nursing in-service education for new oncologic agents once they are added to formulary.
- I need to learn how to titrate patients on schedule II narcotics for acute pain control.
- I need a blood management plan for non-blood-receptive religious patients
- I need a blood management plan for non-blood-receptive religious patients
- this device (Biopatch) should be labelled 'this side up'.
- I need reports on weight-loss side effects of Topamax, and dosages for men.
- Help us design and implement our antibiotic stewardship plan
- I need to reduce catheter infections by 15%
- I want to run a diabetes education program in Hmong
- I need measles education materials in Somali
