THE DIFFERENCE

Make note of specific business issues that are challenging your operation and set aside some time with your implementation team to discuss them. Our greatest client successes have come from brainstorming sessions such as these. We would also like to hear how we are meeting your expectations as a Service Provider. Our success comes from yours – inform us how we can better serve your organization.

No better opportunity will present itself than this to meet with your implementation team. BAASS representatives will make themselves available during the Track Sessions for discussions. These meetings will be held in the main conference hall.
