Plus Computer Solutions Named a Technology Pacesetter by Accounting Technology.

Sage ERP Accpac Business Partner, Plus Computer Solutions, is recipient of multiple awards for performance and leadership.

Burnaby, British Columbia — November 24, 2011 - Plus Computer Solutions, a premier Sage ERP Accpac business partner, today announced that for the fourth year running, has been chosen by the editors of Accounting Technology as a Technology Pacesetter for 2011.

Accounting Today magazine awards the Technology Pacesetter award annually to 100 organizations that market financial midmarket applications. Seth Fineberg, Accounting Today's technology editor, said, "As the economy begins its recovery, today's leading resellers and consultants of accounting technology have earned their place on our Technology Pacesetters list of top-flight accounting and ERP VARs, not simply by selling the latest software, but by being able to offer essential, often new, services to their clients and focusing more on key vertical markets."

"Despite another year of poor economic conditions for the ERP software industry, it is an honour to be recognized," said Glen Mund, president of Plus Computer Solutions. "We credit our continuing success to our philosophy of restoring confidence in ERP implementation. Through our reliable software, impeccable customer service and our fixed-fee, money back guarantee, we build a trust with our clients that sets us apart from the competition."

###

About Plus Computer Solutions Ltd.
