FOR IMMEDIATE RELEASE: New Value Packed Retail Thermometer Sets for Child Safety, Adult Health and Household Energy Monitoring Featuring Color Change Technology

Glenview IL – November 28, 2011 - LCR Hallcrest is pleased to announce the release for sale of three (3) Retail Product Sets featuring the company's unique color changing technology, which is made in the USA.

The Child Safety Products Set contains a 5 piece assortment of Forehead, Bath and Room Thermometers in exciting, colorful packaging, designed to bring an element of fun into child safety. This value packed kit, provides Mom with a forehead thermometer to help monitor children's temperature and tools to help insure child safety by monitoring bath water and room temperature.

The 17 Piece Adult Thermometer set features LCR Hallcrest's unique moving line forehead thermometers as both a reusable and disposable device, intended for household and on the go usage. Perfect for travel, diaper bags emergency preparedness kits and wherever it is necessary to non-invasively monitor human temperature.

LCR Hallcrest brings color change to **Household Energy Monitoring** with a Toolkit that offers 5 tools to help monitor refrigerator, freezer and hot water temperatures insuring that appliances are set at the safest and most efficient temperatures. The Toolkit also includes a Propane Gas Level Indicator which will insure that you never run out of gas when grilling and a household battery tester that lights up to indicate battery strength, providing the consumer with a simple way to check household batteries.

Richard Goldschmidt, of G-Force International comments: *"The retail potential for these products is enormous as they offer the consumer tremendous value in an area where most thermometers and monitoring devices are premium priced. LCR Hallcrest's products are unique innovative and affordable."*
