

Medical Billing Company Forms Internal Medicine Billing Division

Capture Billing & Consulting, Inc. Announces the Formation of their new Internal Medicine Medical Billing Division to assist Physicians with their Medical Billing

Loudoun County, VA - Capture Billing & Consulting, Inc., a medical billing company located in South Riding, Virginia, is pleased to announce the formation of the [Internal Medicine Medical Billing](#) Division supervised by Britt Hansen, CPC (Certified Professional Coder).

According to ACP (American College of Physicians) “doctors of Internal Medicine focus on adult medicine and have had special study and training focusing on the prevention and treatment of adult diseases”. These doctors are often sought out by other physicians as consultants to assist in the analysis of perplexing diagnoses.

Internal medicine brings a new variety of diagnoses and procedures to the medical billing field. This is why Capture Billing has decided to form a division solely focused on [Medical Billing for Internal Medicine](#). Britt will be overseeing her team of CPCs to ensure all medical claims are submitted with the correct diagnosis codes.

“The broad spectrum of diagnoses and procedures within Internal Medicine has increased my knowledge and understanding of the specific codes insurance companies require to process these individual claims”, says Britt.

Britt and her team will handle posting, patient billing functions and billing inquiry calls in addition to guiding doctors and their staff throughout the entire [Internal Medicine Billing](#) process; from charge entry, insurance claims submission and denial management to revenue follow-up. Capture wants to ensure that physicians and their medical practices are paid for all services they provide, which will help increase their revenue.

Capture will meet with individual Internal Medicine practices and their staff to examine billing and coding concerns and review the medical billing process. These meetings are also used to review monthly reports containing but not limited to; current A/R, practice analysis and patient and insurance outstanding detail.

They will review monthly reports assisting individual practices with their revenue growth.

ABOUT CAPTURE BILLING

Capture Billing and Consulting, Inc., a leader in the outsourced medical billing services industry, offers one of the most cost effective outsourcing solutions to healthcare professionals available. By eliminating the need of an in-house medical billing staff, Capture Billing's staff of expert medical billers and certified professional coders help to increase physician reimbursement by improving collection rates and ensuring proper ICD-9 and CPT coding. Practicing physician and CEO, Dr. John D. Farrell, Jr., formed Capture Billing in 2004 as the answer to one of the largest concerns physicians face today, how to receive proper insurance reimbursement for services they provided.
