

Medical Billing Company Teaches Medical Billing, Coding and Collections a Local Community College

Capture Billing & Consulting, Inc. will be teaching medical billing, coding, and collections the first semester of 2012 at local community college

Loudoun County, VA - Capture Billing & Consulting, Inc., a [medical billing company](#) located in South Riding, Virginia, will begin the first semester of 2012 with a fast paced two part class on medical billing, medical coding and collections at Northern Virginia Community College (NVCC), Loudoun Campus in Sterling, Virginia.

NVCC's "Medical Billing, Coding, and Collections" class will be taught by Katie Jennings. Katie's experience as a nurse and medical biller has given her the knowledge and insight into both the medical and business aspects of healthcare. Katie's familiarity with diagnosis codes and insurance companies' claims processes has helped influence the design of the class.

"This class is a great introduction into the [medical billing](#) field. I cover all aspects involved in medical billing as well as the [medical billing](#) process from beginning to end", says Katie.

Part one of the two part class consists of lecture and theory. A few of the topics that will be covered in the class are claim preparation, documentation, reimbursements, and collections. Part two of the class will be a hands-on computerized class. Participants will learn about data entry, claim adjustments, write-offs as well as other topics, with an introduction to medical billing software and management. The class will also review real life [medical billing](#) situations.

Part one and Part two of the program both consist of four sessions each. They will help students prepare to enter the [medical billing](#) field as well as those who would like a career change. As medical billing standards change and become more complicated medical offices and medical billing companies will be seeking qualified individuals to manage the billing process.

ABOUT CAPTURE BILLING

Capture Billing and Consulting, Inc., a leader in the outsourced medical billing services industry, offers one of the most cost effective outsourcing solutions to healthcare professionals available. By eliminating the need of an in-house medical billing staff, Capture Billing's staff of expert medical billers and certified professional coders help to increase physician reimbursement by improving collection rates and ensuring proper ICD-9 and CPT coding. Practicing physician and CEO, Dr. John D. Farrell, Jr., formed Capture Billing in 2004 as the answer to one of the largest concerns physicians face today, how to receive proper insurance reimbursement for services they provided.
