Media5 Corporation - Industry Leading VoIP Solutions Now Certified in over 75 Countries

Increasing global demand for advanced VoIP solutions spark growth

Sherbrooke, Canada, December 01, 2011 – Media5 Corporation, a leading provider of IP-based communications solutions, has recently achieved the milestone of being approved for use in over seventy five (75) countries worldwide.

With successful certifications for 2011 in Asia, Europe, South America and the Middle East, Media5 has developed a global network of partners.

Speaking on the occasion, Mr. Philippe Babin, General Manager at Media5, said, “We’re experiencing stronger global demand for our entire line of advanced VoIP solutions. Our customers in APAC and EMEA markets have realized tangible benefits by implementing unified communications solutions. We are pleased to deliver these certified solutions and are working hard to develop products that pave the way toward truly seamless IP-based communications.”

Driving the success for Media5 Corporation is the strength of its three key brands:

Mediatrix access devices and secure gateways are innovative VoIP communication solutions that focus on delivering the core benefits of IP telephony: cost-effectiveness, reliability, scalability and security.

Media5-fone is a suite of soft client applications that enables seamless communications anywhere, at any time, on any device, on any network (Wi-Fi, 3G/4G).

M5T software offers product designers and service providers faster time-to-market when deploying secure IP solutions in converged networks.
