Dresser & Associates Announces Partnership with Talent Management Software Provider, Cornerstone OnDemand

Sage Abra HRMS Business Partner, Dresser & Associates, Adds SaaS-Based Talent Management Software to its Employer-Solution Offerings.

Scarborough, ME—December 6, 2011—Dresser & Associates, the leading Sage HRMS (formerly Sage Abra HRMS) business partner in the nation, today announced a new partnership with talent management software provider Cornerstone OnDemand. Dresser & Associates will sell and support Cornerstone's comprehensive, SaaS-based application in conjunction with Dresser's full compliment of payroll and HR management solutions.

Cornerstone's award-winning integrated talent management suite includes functionality for learning management, performance management, enterprise social networking, and extended enterprise engagement. As a web-based software-as-a-service (SaaS) application, Cornerstone is quick to deploy and requires few IT resources.

"Not only are small and midsized businesses showing increased interest in taking an integrated approach to learning and talent management, they also are wanting to invest in cloud solutions to support their efforts," said David Somers, vice president of alliances and strategy for Cornerstone OnDemand.

"By incorporating Cornerstone into the broad range of employer solutions that Dresser & Associates already offers, we can provide our clients with yet another tool to help them more easily manage their workforce," said Mark Dresser, president of Dresser & Associates. "In our goal to serve as a trusted business advisor to our clients, we continually seek out value-added resources such as background screening services, pay-as-you-go workers' compensation software, an employee purchase program, and an HR and payroll legal support hotline, which dovetail with our core business offerings."
