Subject: We need to issue Subpoenas.... From Sharyn Bovat

Kline

We need to subpoena Ghosn at the Detroit auto show. I can get it served all you need to do is issue it.

This is vital to my defense.

from the Financial Times: Carlos Ghosn, Nissan's chief executive, will unveil another electric model at next month's Detroit motor show. Nissan has in the past spoken of adding a city car, a commercial vehicle, and a saloon made by its premium Infiniti marque to its electric range.

Peace and Respect
