

FOR IMMEDIATE RELEASE

THE VITEC GROUP COMPLETES ACQUISITION OF HAIGH-FARR

The acquisition strengthens Vitec's position as a leading provider of video solutions for Military, Aerospace and Government (MAG) markets

LONDON , DECEMBER 16, 2011- The Vitec Group plc (“Vitec”), the international provider of products and services for the broadcast, photographic, and MAG (military, aerospace and government) markets, completed the acquisition of **Haigh-Farr Inc. (“Haigh-Farr”)**, announced on September 30. The transaction received all necessary regulatory approvals.

The acquisition of Haigh-Farr, a leader in the conformal antenna industry, marks a pivotal step in Vitec's strategy to expand its footprint in the U.S. and international MAG markets. Vitec's **Integrated Microwave Technologies (IMT)**, based in New Jersey, the U.S., provides mission critical microwave video systems to law enforcement, military services and government agencies.

“We are honoured to have such a highly regarded business in the Vitec MAG portfolio. Our combined solution offerings and innovative design capabilities will allow us to address the most challenging customer needs,” said Steve Shpock, Divisional Chief Executive, IMT.

“We are excited about our future with the Vitec Group and IMT, which brings an accelerated opportunity for greater innovations, new markets and global business growth,” said David Farr, President of Haigh-Farr.

About The Vitec Group

Vitec is an international Group principally serving customers in the broadcast, photographic and military, aerospace and government (MAG) markets. Listed on the London Stock Exchange with 2010 revenue of £310 million, Vitec is based on strong, well known, premium brands on which its customers worldwide rely. Vitec is organised in three divisions: Imaging & Staging, Videocom and Services.

Imaging & Staging designs, manufactures and distributes equipment and accessories for photography, video and events. Videocom designs and distributes systems and products used

in broadcasting and live entertainment, film and video production and MAG. Services provides equipment rental, workflow design and technical support for camera, video, audio, fibre optic and wireless technology used by TV production teams and film crews.
