For 20 years, Soma Technology, Inc. has specialized in outfitting healthcare facilities with quality new and refurbished medical equipment. We have become a market leader because of our commitment to industry advancements, while maintaining the highest level of customer satisfaction.

Single Source Solutions

Soma Technology, Inc.'s main goal is to fulfill our clients' medical equipment needs. With one of the largest and most diversified medical equipment inventories, we have capabilities that exceed those of our competitors. In addition, we offer new equipment from GE Medical Systems, Dräger, Criticare, Medtronic-Physio Control, Zoll Medical, Mac Medical, and more. At Soma Technology, Inc., our customers can evaluate major models and manufacturers. With our **Single Source Solutions**, our customers no longer need to purchase from multiple vendors, which saves them time and money!

TABLE OF CONTENTS

■ ■ ■ ■ ■ ■ ■ ■ ■ ■ ■

Soma Technology, Inc. is able to fill the entire operating room with new and refurbished equipment for your surgical needs. We refurbish equipment only from top manufacturers, such as **GE Medical Systems, Dräeger, Steris Amsco, and Valleylab.** Whether you are looking for one piece of equipment or a complete OR setup, we invite you to visit www.SomaTechnology.com, or give us a call.

Soma Technology Has Your Solutions

Service

SOMACare. The Service You Need.

Benefits of Somacare
- We have a team of certified biomedical technicians (CBET)
- We have both a Clinical and Biomedical Engineering department
- We offer multi-modality capabilities, Biomedical, Imaging, Sterilizers
- We offer depot or field service repair capabilities
- We excel in technical and cosmetic refurbishing capabilities

The Names You Know...
The Service You Need.

Our service sector sets Soma Technology, Inc. apart from our competition. Beyond essential recalibration and support, we provide service contracts to ensure that your investment value extends beyond your expectations. Our service options are customizable to suit the demands of your operation. Our products, our people, and our services ensure your peace of mind.

We offer depot and field service with customizable service options.

- **Time and Material Service**, including parts and labor as required
- **EST Contract:** Includes electrical safety test and a quick check of all medical equipment
- **Labor Service Contract:** Includes **EST**, labor and travel on all preventative maintenance and repairs. Parts not included.
- **Full Service Contract:** Includes **EST**, labor, travel and parts for all preventative maintenance and repairs.

Refurbishing Process

Our stringent refurbishing process guarantees you value and confidence. When you purchase a refurbished item from Soma Technology, Inc., you will receive the quality, warranty, and support of a new system.

Rigorous Selection
Soma Technology, Inc. searches nationwide for name brands of superior equipment from a variety of reputable sources. Starting with a quality machine ensures a more reliable product after refurbishment.

Skilled Removal and Transport
Our experienced personnel are able to remove equipment procured for refurbishment without hassle, ensuring that the system arrives at Soma Technology, Inc. in good condition.

Expert Refurbishment
All items are fully inspected, the unit is cleaned and our in-house biomedical engineers begin the refurbishment process.

Technical Refurbishment
- During the initial physical check, batteries are replaced
- Using the latest testing equipment, we verify that all equipment parameters and conditions are functional
- All components that are not performing properly are replaced or repaired
- The unit is reassembled and undergoes further testing and calibration (all accessories, peripherals, and modules commonly used with the equipment are tested so that overall operation and effectiveness can be verified)
- Every replacement, testing, and servicing is properly recorded under the equipment history log
- The process concludes with approval by the quality control department

Cosmetic Refurbishment
- Equipment is inspected for any wear and tear
- Units are sanded, primed, and painted
- We use an AFC paint booth for perfect results
- The end product is completely blemish-free

Full Warranty and Support
All of Soma Technology's products are supported by a full 90-day to 1-year warranty and a guarantee of parts availability.

SOMA TECHNOLOGY, INC.™
Worldwide Medical Equipment Sales and Service

For twenty years, Soma Technology, Inc. has been a global leader in reclaiming and refurbishing medical equipment. Our efforts have set the highest standards for sustainable business models and provide a path to healthy medical business practices.

Regardless of the size, location, or financial circumstances of your facility, we can provide you with a reliable refurbished system.

Compared with new equipment, refurbished medical equipment leaves a much lighter and less daunting ecological footprint:

• Materials and parts are reused
• Natural resources are saved
• Emissions and chemical substances are reduced
• Consumption of raw materials is reduced
• Consumption of energy is reduced

For information on our refurbishment process, please refer to page 19.
