

## The most efficient fluorescent lighting retrofit technology available today.

10x faster than any other T5 retrofit kit on the market with a shorter payback period. Designed for all residential and commercial applications - perfect for schools, hospitals, warehouses, office buildings, distribution centers, condo associations, parking garages, retail centers, shops and homes.

**80%** Lower energy bills

**60%** Smaller carbon footprint

ROI less than **1 year**

### Good-bye T12

- ✓ "T12 phase-out" government mandate in effect.
- ✓ 500 million magnetic T12 fluorescent tubes are still illuminating US buildings according to National Lighting Bureau - to be replaced starting 2012.
- ✓ T5 tube best replacement option - leader in energy efficiency, light quality and price.

### Hello LUXADD™

- ✓ Instant energy savings up to 80% - smaller carbon footprint 60%.
- ✓ **ROI less than 1 year average** - 10x faster - no labor - retrofits T12 to T5 with just one simple "SNAP" - like changing a light bulb.
- ✓ Only tailor made T5 retrofit solution specifically designed for US market - no ballast replacement or rewiring. Delamping possible for majority of applications.

## SAVINGS EXAMPLE

**Electricity Costs per Year before:**

100 x T12 tubes = 21,024 KW-h/yr = **US\$ 2,523**

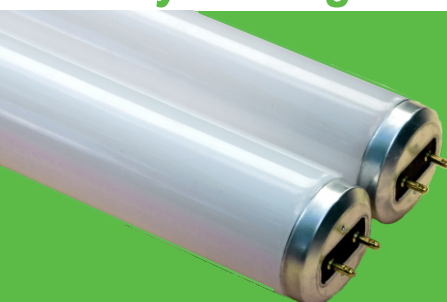

## FLORIDA, USA

12 Cent kw-h  
12 hours/day  
40 week air

**Electricity Costs per year with LUXADD™:**

50 x T5 Tubes & Link = 6,570 KW-h/yr = **US\$ 788**

**Yearly Savings incl. a/c: US\$ 1,734 + US\$ 486 (a/c) = US\$ 2,220**

**BEFORE:**  
Two T12 lamps with energy wasting magnetic ballast - T12 to be phased-out 2012 - Act now!

**AFTER:**  
Express T5 Retrofit Kit for T12 (magnetic) with Delamping Link - Save energy with a simple "SNAP"!
