

Mech-Q

The All In One Engineering Solution

Fully Compatible With
AutoCAD, AutoCAD LT &
IntelliCAD Products

Mech-Q Highlights

Engineering Suite Includes:

- Mechanical
- Piping
- HVAC Ducting
- Structural

Quick Overview:

- Works seamlessly with AutoCAD®
- Separate modules or bundles available
- Easy to use parametric menus
- Supporting 2D, 3D and Isometric
- Equipped with Bill Of Materials
- Windows 7 32-64 bit compatible

“ I have been using your product for about 7 years and when I had a problem (which has been very few times) ASVIC Support solved my problem immediately. Thanks for supporting your product. This is the best program that I have used and ASVIC keeps improving it. ”

John Grooms
TN, USA

Introducing A Powerful Engineering Add-On

Mech-Q offers a very affordable Engineering Solution.
Purchase our entire Engineering Suite and save!

Mech-Q works like you do - only faster.

Mech-Q has been designed to let you work like you always have, but it provides the tools to do it faster, accurately and with ease. Mech-Q lets you draw to your office standard - no need to change the way your office works. You do not need to look up tables for bolts, steel shapes, pipe fittings... any more.

Mech-Q is very affordable.

Mech-Q works seamlessly inside AutoCAD®. Purchase only the modules you need and customize it to your office. Mech-Q is also available as a Full Engineering Suite - so you have everything you'll need at one incredibly low price. Be sure to ask us about our current promotions.

Mech-Q is designed for you.

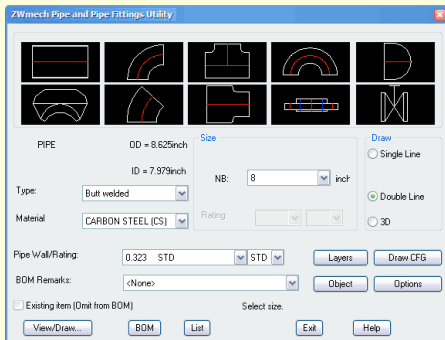

Our products are developed by a professional team of engineers and programmers. The developers of Mech-Q have worked with people just like you, and have made every effort to design the product so that it is intuitive and has everything you will need to get the job done. We listen to our customers - and we are dedicated to continue to improve Mech-Q.

Try Mech-Q today!

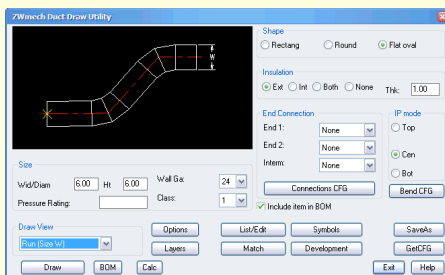

There is no need to take any risks - that's we let you try before you buy. Just send us an email or give us a call and we will send you a copy of Mech-Q to evaluate for 21 days. There is no obligation to buy and no credit card required. Once you have finished testing it is simple to uninstall.

Why Choose Mech-Q?

- Free lifetime technical support
- Runs directly inside AutoCAD®
- Purchase only the modules you need!
- Easy to use and customizable
- Regular software updates
- Unbeatable value and cost savings
- Designed by engineers for engineers

Menus offer an “easy to use” interface

Mech-Q is sold worldwide by:

About CADavenue

CADavenue is a U.S. based office owned and operated by ASVIC Software Inc. the makers of Mech-Q. We provide you with quality support to all of North America and work directly with the Australian office. We appreciate any feedback on our services and Mech-Q.

The Mech-Q Engineering Suite contains all the modules listed below.

Separate modules and bundles can also be purchased separately.

Mechanical:

- Includes a comprehensive range of mechanical symbols & applications. Most functions available in 2D or 3D solids
- Ships with a general drafting module with layer tools, text editing, and more
- Includes shafts design, chamfering utilities bearings & bearing housings
- Also includes keys & key ways, spur gears, clutches, cylindrical tolerance, mechanical symbols ...
- Utilities for drawing of bolts, nuts, washers, pins, bolt holes, slotted holes and more
- Features material handling and includes conveyor rolls, suspended, sprockets, conveyor wheels, chain wheels, trajectory & valley angle calculator

Piping:

- Draws complicated piping plans in hours not days
- Includes a comprehensive range of pipe, fittings, flanges and valves: Welded, flanged, threaded, ductile & cast iron, Victaulic stainless, PVC ...
- Choose from welded, flanged, threaded, ductile & cast iron, stainless, PVC & more
- Other utilities include: Isometric piping, P&ID, fabricated pipe, hangers, clamps, Vessels, pumps...
- Draws single line, isometric and 3D solids
- Equipped with Bill Of Materials (BOM) and scheduling

HVAC Ducting:

- Draws rectangular, round & flat oval ducting w/ or w/o insulation
- Build-in and customizable symbols, duct labels, elevation
- Fully customizable and several configurations can be saved
- Lists duct data for easy identification of parts
- Create duct, bends & tees for cut sheets
- Maintains office standards with full layer control
- Inserts duct identification labels & elevation labels
- Available with 2-D & 3-D (solid) capabilities
- Auto generates BOM with sheet material take-off

“ We purchased your program a little while ago and love it!!! More importantly, our CLIENTS love it!!! We are now receiving projects based upon our ability to show what other firms don't.

Marc Wachter
Wachter & Associates
Mullica Hill, NJ

Structural:

- Creates structural steel details on the fly
- Steel shapes 2D & 3D with weighted auto-BOM
- Generates 2D & 3D Stairs, ladders, bracing
- Includes frames and beam designer
- Many with auto-dimensioning to fabrication detail

Full Suite:

- Save when you purchase all the modules
- All modules work within one integrated pull down
- Multiple licensing discounts also available
