About Chantilly Chocolatier

Chantilly Chocolatier was founded in 1963, expanding its reach to the Middle East in the beginning of the 80's.

With a wide variety of tantalizing palate treats Chantilly's chocolates have become synonymous with the excellence and luxury that every chocolate gourmet seeks.

This unique savoir-faire has enabled Chantilly to spread its presence further and cater to the Gulf region where it opened its Dubai based chocolate factory in 2006. The factory produces a wide range of chocolates with different flavors and shapes for the local as well as the export markets. With over 50 different fillings Chantilly's chocolate delights are made from the finest selection of roasted cocoa beans. Our premium range, which is free from preservatives and artificial flavors, boasts a wide array of savory treats varying from Grands crus to pralines, marzipan, fruit pastes, truffles, "marrons glacés", and "dragées".

Our commitment to excellence in taste and quality has driven our passion for chocolate making turning it into craftsmanship over the years.
