Book Synopsis for The Genesis Code: God Has Spoken

An explosion of consciousness, **The Genesis Code: God Has Spoken** delivers a new level of enlightenment to our world. As we near the end of an era, it is no coincidence that this ancient message from God to mankind is surfacing at this particular time. There is a reason for this: *The Genesis Code has been given to guide mankind into the next level of human consciousness.*

Purposefully embedded in the Five Books of Moses approximately 3,500 years ago, authors Abraham Lopian and Julie A. Snyder explain why. This is the story of the mysterious Luchot—the first set of tablets created by the Elohim (God) and brought down the mountain of Sinai by Moses, himself. Unique and shocking, this fascinating book takes us on a fascinating and untraveled path. We find ourselves in the core of the Godliness and then travel through various dimensions within the metaphysical realms.

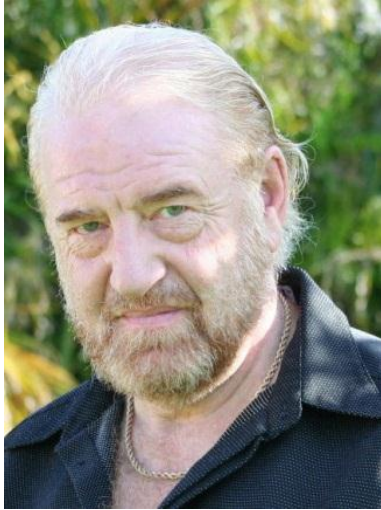

This is the Bible we have never known and the untold story of creation. We learn of magnificent portals, and Heaven's greatest secret is revealed. We are taken through the reality of long ago, and learn why the man of our past failed to absorb the Luchot's enlightenment. This story catapults our consciousness back to that which existed before the creation of our universe and gracefully descends into the dimension of time where man thrives through various matrixes of consciousness. This story is a magnificent journey of becoming, and the wisdom man needs to transform his consciousness and create a reality of a different kind.

Readers will learn:

- Why the Bible holds a secret code;
- Why God hid this message from the man of the past;
- What God is—a revelation about the Godliness man has never known;
- The hidden message within God's Hebrew names—Elohim, Jehova Elohim, and Jehova.
- The hidden message within the name, Adam;
- The secret of the Heavens;
- How we manifest various realities;
- What the matrix truly is;
- Why man exists;
- Why this creation is vital to God;
- The secret code in Moses' name—who and what he truly was;
- The secret of the Luchot (the first tablets of Sinai) that has never been revealed;
- The deeper insight within Jacob and Esau;
- The hidden code in Israel;
- The secret of consciousness and its relationship to the quantum world.

Find out why others are saying **The Genesis Code: God Has Spoken** is the most enlightening book ever written on The Five Books of Moses.

Meet the Author: Abraham Lopian

Originating from London, England, Abraham Lopian is a new generation of spiritual mastery born from traditional Orthodox Judaism. Raised in an Orthodox Rabbinical family that has produced leading Rabbis and Deans of Talmudic Academies throughout the world, Abraham's tumultuous life of learning began at the age of 3 years old. By the age of 9, he was studying the Talmud in the ancient language of Aramaic and the Torah in Hebrew.

Abraham knew his purpose in life and devoured the Talmud's wisdom studying with his Rabbinical Uncles and, years later, with his famous Grandfather, Rev Elia Lopian, a famous and well-respected Rabbi known for his remarkable insight into the Torah and proponent for Musar—the theology of purpose and righteous living based on Talmudic and Halachic traditions inspired over the centuries.

In 1988, at the age of forty-four, a profound inner transformation would forever change his perspective of God, creation, and human reality. Through a new set of eyes, the Torah came alive within Abraham's awareness and he became a new level of spiritual mastery. Unlike the past, the Bible's coded message rose from the depths of the pages and into his new awareness. In 2001, Abraham met Julie Snyder, and a powerful male/female relationship was born. A decade later, a book was born.

Abraham's decades of study included the following institutions of knowledge:

- Schneider's Talmudic College, London, England
- Gateshead Talmudic College, Gateshead, England
- Kfar Chasidim, Haifa, Israel
- Lakewood Talmudic College, Lakewood, New Jersey
- Chaim Berlin New York
- Etz Chaim Talmudic College, London, England
- Mir Talmudic College in Jerusalem, Israel
- Brezlev Chasidic College in Jerusalem, Israel
- Hartzvi Halachic College, Jerusalem, Israel

Abraham, accredited with the discovery of the coded revelations within the ancient Hebrew texts, is a leading scholar on Hebrew and Biblical studies. His passion for truth and enlightenment, together with his 55+ years of wisdom on the Talmud, the Torah, philosophy, mysticism, Jewish and Biblical studies, has led him through the doorway of enlightenment. Abraham has taught the world of mysticism at Florida International University, hosted Mystic Radio, and continues to enlighten humanity to the Bible's hidden code.

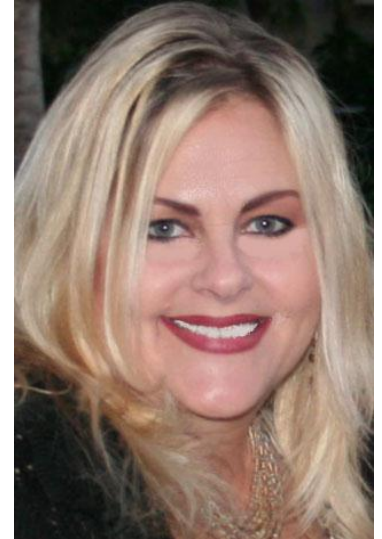

Meet the Co-Author: Julie A. Snyder

Born in San Diego, California, Julie has been a successful business executive for 25+ years. While Abraham comes from the religious world of Judaism, Julie comes from a secular background. Half-Jewish, but schooled in a private Christian setting, Julie never felt comfortable in any religious environment. Her God was never their God. What is unique about Julie and Abraham, is that they come from opposite ends of the spectrum. Yet together, they bring forth a united and powerful vision of the Godliness and the reality we live in.

As The Genesis Code book series unfolds, Julie is eager to enlighten humanity to a previously hidden truth: *The Genesis Code not only empowers the feminine spirit—but reveals the female is the most powerful creative force in our universe.* Many will be surprised as The Genesis Code vehemently challenges male-dominated interpretations of the female's role within creation.

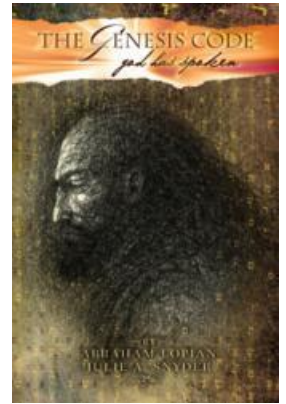

Julie's feminine perspective, together with her innate knowingness into the Godliness and creation, bring forth a new level of light in our world. She puts these advanced concepts into words making it possible for the people to easily understand a complicated subject. In essence, she has opened a portal of communication that makes it possible for vital wisdom to flow into human consciousness.

Different philosophies, ideas, and interpretations are that which catapult humanity to new levels of being. There are times in our lives when new knowledge streams into our reality forcing us to face the truth of who we are and what we have become. Each of us travels the road to enlightenment in a unique and personal way. Like so many others, Julie has experienced great love and loss, together with failure and achievement on her quest for higher awareness. Julie states, "Experiencing that which we have never known, seeing the duality and choices within each experience we face, is our metamorphosis and how we transcend from one level of enlightenment to another. We are God becoming."

Book Review by Dana Micheli

Writers in the Sky

Welcome to the Rabbit Hole!

Why am I here? Why is there so much suffering in the world? When does life really begin? Is there an afterlife?

Have you ever wished that someone would take you by the hand and explain the answers to these questions? Well, now someone has, and it is God, itself. Regardless of where you are in your spiritual journey, [*The Genesis Code: God Has Spoken*](#) will challenge the way you view both the spiritual and physical realms. In short, it will change your life.

Since the beginning of time, people have been wondering about the nature of God and mankind's role in the world. In our efforts to answer these questions, man has built temples and waged wars. We have created religious doctrines that influence everything from what we eat, what we wear, and who we vote for. Religious doctrine influences how we view the world, each other, and ourselves. Innumerable books have been written in an attempt to explain the nature of God, yet the answers have eluded us--*until now*.

The Genesis Code brings to light a powerful message hidden in the Bible, itself, and one that will undoubtedly turn the religious community on its ear. We have always been taught that we are acted upon by God, but now we are learning that *we are the powerful creators*, the actors through which God experiences its essence. This revelation, buried in the Five Books of Moses (also known as the Hebraic Bible and Torah) brings with it not only a sense of power, but an awesome responsibility that comes with control over our own destinies. *The Genesis Code* teaches us that in realizing this, we are not turning away from God, but becoming one with the Godliness that is not only us--but everything. *The Genesis Code* also explains why it has taken nearly 3,500 years for this message to be delivered; and in doing so, it illuminates thousands of years of human history, back to the time of Moses, himself.

Authors Abraham Lopian and Julie A. Snyder could not have come from more different places in life. Abraham is from London and Julie from California. Yet, it was more than geography that separated them. Abraham had experienced a lifetime of Talmudic study, while Julie lived a primarily secular life. The events that brought them together are none other than Divine intervention--another story in itself.

Together, Abraham and Julie have worked to bring the coded message of the Torah to humanity. *The Genesis Code: God Has Spoken* is the culmination of that effort, but it is only the beginning. Abraham and Julie are planning a series of books that take man's journey toward enlightenment to the next level.

The question now becomes, "Are we ready to accept the answers?"
