

# Multi-Channel Retail

To be competitive in today's demanding retail environment, retailers need an integrated retail management solution that delivers enhanced customer service across multiple channels while driving growth and increasing revenue. Retail Anywhere understands these needs and delivers a cloud-based, end-to-end solution for multi-store and multi-channel retailers.

## A Comprehensive Solution

Retail Anywhere integrated its best-in-class POS with NetSuite's cloud-computing ERP platform, unlocking a multi-channel retail management suite that is the most comprehensive solution for retailers. While the ERP platform is an on-demand, web-based application, Retail Anywhere POS remains an on-premise solution, leveraging Microsoft's .NET and SQL technologies, and is certified ARTS Data Model Conformant.

## Put Our Experience To Work For You

Rely on Retail Anywhere's end-to-end solution and 28 years of experience to help you transform and unify your business' performance and processes. We understand the importance and complexities involved in creating, deploying, and supporting retail solutions needed to give your business a competitive edge in today's demanding, cross-channel shopping environment.

*Full service solutions with  
seamless integration.*
