A fast and easy way to reach more consumers through Online Wine Marketers

ShipCompliant MarketPlace gives wineries and importers a **fully integrated system** to sell products compliantly through Online Wine Marketers.

- Designed to meet the California ABC's specific, new guidelines
- Supplier maintains control of product placement, order acceptance, and financial disbursement
- Seamless, real-time compliance checks and sales tax calculations on all orders
- Access to a network of certified Online Wine Marketers

MarketPlace is built by the industry's compliance and technology experts at ShipCompliant. Not only does MarketPlace technology seamlessly integrate with your current order and fulfillment workflows, but you can also be sure MarketPlace operates with the same level of integrity as the ShipCompliant compliance software that 60% of the wine shipping market has put their trust in.

Increase Brand Awareness & Acquire New Customers

Online Wine Marketers can place your products in front of a large wine-purchasing audience of prospective clients. ShipCompliant MarketPlace helps you protect your license and maintain brand integrity when working with a third party by ensuring you have ultimate control over all aspects of the transaction, including:

- Product placement and pricing
- Order acceptance and fulfillment
- Payment disbursement and invoicing

Once you launch your online wine sale, use MarketPlace to track inventory, orders and sales results.
