

## **Home Protection Packages from Elite Security Services in Canada Enhanced with the Addition of Burglar Alarm Siren**

Acclaimed American [home protection](#) company Elite Security Services has recently added an excellent burglar alarm siren to all their packages offered in Canada. The company provides low cost protection to the life and property of the house owners in Canada and the United States.

Elite Security Services has just announced the addition of a burglar alarm siren to their [home protection](#) packages in Canada. They are a distinguished company in the American home security industry. The company made their appearance in the Canadian market during the later part of 2011 and has been making continuous enhancements to their packages since then. They are expanding quickly in Canada in order to make their service available even in the remotest corners of the country. The low cost security systems has made them a market leader in the United States, and the company looks all set to emulate the same feat in Canada, too. Elite Security Services presently offers three amazing packages conforming to the latest market standard.

The [home protection](#) packages from the company are economically priced to make it affordable for all. The basic package can be availed for a monthly expense of only \$35.99 per month. They have two more highly sophisticated packages that can function even without any landline phone or home power supply. The addition of the burglar alarm system will help the company provide better protection to customers in Canada, according to Mr. Paul Shakuri, the owner of the company. Announcing the introduction of the new component, he said, “The new burglar alarm siren will alert the customers with its high pitch. The pitch is so loud that even your neighbors would be able to hear the siren”.

With the increase in the number of burglar attacks in the recent years, many companies have entered the [home protection](#) industry. However, very few of them have had the kind of success that Elite Security Services has achieved. The success of the company can be attributed to the top class technical team of the company led by Mr. Shakuri himself. The company already has a large pool of delighted customers in Canada within just a few months in the market. Daniel, a customer of Elite Security Services from Calgary was quoted saying, “Elite Security is certainly one of the best in the home security business. It is a delight to deal with them. I have already recommended them to my friends”.

About the Company: Elite Security Services is a security company providing protection to homeowners in Canada and the United States. They are also an active associate of Protect Your Home.
