

PROFILES OF SUCCESS

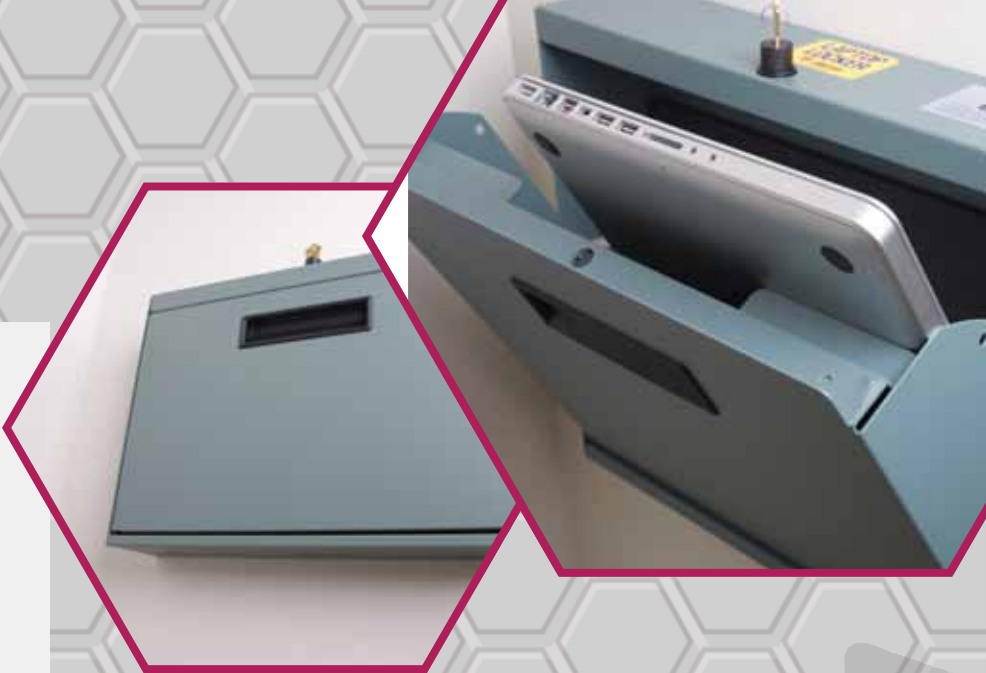

East Georgia College  
Swainsboro, Georgia  
Computer Security

## Problem

East Georgia College was looking for a way for their students to safely store their laptops and other valuables in the dorms. A space efficient and secure option was needed, with an emphasis on convenience.

## Solution

Datum equipped the student dorms with individually locking LapTop Safes, to provide the students with a secure place to lock up their laptops and other valuable electronics.

Each safe was wall mounted in the dorm room closet, easily accessible, but out of the way. The safes throughout the dorm were all keyed uniquely, meaning that no two units opened with the same key.

A plastic card pocket was also worked into the design so students had a place to keep their credit cards and identification. The unit provided students with a safe and secure place to store all of their valuables.
