

SELF SERVE RTB

First Impression is the first of its kind RTB self serve display platform that focuses on the direct response advertiser.

We have built a platform that enables advertiser to target online and mobile inventory like never before. Advertisers can now test campaigns on our exchange traffic, scale on our premium inventory and expand their campaigns into mobile. In development, we focused on the methodology of a performance advertiser, and created a platform that empowers them to easily measure success and grow campaigns quickly and efficiently. By leveraging real time buying, it gives a media buyer the full control to maximize the value of an impression.

REAL-TIME BIDDING/SELF SERVE

Build, target, manage and optimizing your campaigns in real-time with our simple self serve platform.

MEASURE ROI BY PLACEMENT

Maximize your ROI with granular placement tracking.
