EXPEDITION: PERU TO FIND WELLNESS

NEW CUSTOMER WELCOME

The Journey

Expedition

The Expedition...

How a secret expedition deep into the South American jungles transformed the life of MyCleaningProducts.com customers...

Gift From CEO

CEO Private Gift For You...

I would like to personally welcome you to MyCleaningProducts.com.

With that said... I would like to personally thank you and offer a special for contributing to our larger mission. Check it out on Page 3.

It was a bumpy 6 hour flight from sunny Miami, Florida to an old country, rich in culture and knowledge of the earth's natural healing properties. Finally touching down.... I hit my first destination. The unique city of Lima, Peru. Although, amazed by the busy city. This was not my final destination. I was set to go deeper... where civilization has forgotten.

Trekking Deep Into The Historic Lands Of Peru...

The Mission: Find unique ingredients to create products to improve health and wellness.

In order to learn this historic knowledge of these lost remedies. This involved getting close to the locals... eating, talking, and sharing knowledge.

The adventure was "Transforming" and "Enlightening"...

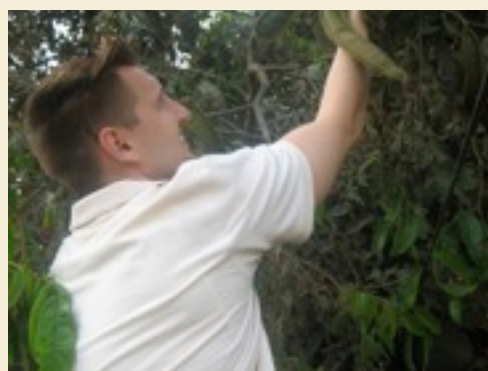

On the next page I will share my adventures of how MyCleaningProducts.com came to create some of these unique products which no one can ever say they seen before.

Finding Ingredients To Produce Wellness

As the sun rose, I journeyed into miles of lush, damp Peruvian forest. The smell of moist mud and tree's filled my nostrils. Swiping away with my machete, the jungles tentacles that were clutching me from this sacred area.

After an exhausting trip. Finally hit my destination where I could discover "the ways of the elders".

The exact ingredients and secrets from the jungle. Given to me by healthy tribes who have lived here for so many years. Free from harsh chemicals and deadly toxins.

A Simple Mission.... Infuse Wellness From Our Products

While, I cannot disclose the exact location and tribe I learned these sacred healing ointments & ingredients from. You can... and will experience the natural healing & wellness yourself as a client of MyCleaningProducts.com

Cleaning Products That Heal & Infuse Wellness...

It may be hard to believe... Let me share a tip I learned from my expedition

Did You Know Lavender Is Given To Pregnant Women In The Tribe To Calm And Soothe.

This was one of many unique secrets we were handed down to us, to improve wellness.

But how... could we take all these natural ways.... and help others feel & live better.

Well, we first started manufacturing formulas with one mission in mind....

Transform homes into a place of zen-like tranquility... using unique fragrances & ingredients that improve wellness. We have dozen "green" solutions using this sacred knowledge.

Finally, there is a better way.... It just took learning a 1000 year old culture to really understand how we can bring it you today. We will never use acids or harsh chemicals... in fact our formulas use natural ingredients straight from jungles of South America.

Giving Back To You... And The Foundation

Learning so much... we felt compelled to give back.

MyCleaningProducts.com is the leader in green cleaners. Not only can they clean... they also improve wellness using never seen before ingredients that fill your home with aroma like fragrances.

No other company would be so fortunate with these powerful formulas and ingredients.

So we decided to give back.. help with building a school and help less fortunate children as you see in the images to the right.

With every purchase of our unique green products, we give aid to the “Salud & Musica” Foundation. Not only that.... you are now a customer. And you deserve some great benefits as well.

PERSONAL GIFT FROM THE CEO TO YOU

Now it's time to reward you... our “Green Bean Member” and customer of **MyCleaningProducts.com**.

I want to personally welcome you to the family, the same way I was welcomed by the amazing people in Peru. So with that said... I wish to offer you this private special to receive **20% off** anything from our product line.
