

::datasheet Mobile Learning

"Take your training to-go. Start at the office, finish on a mobile device."

Mobile Learning by BridgeFront:

Introducing a new way to complete your BridgeFront education—mobile learning. Take your assignments to-go on your mobile device anywhere, anytime. Whether you're on the bus, in the car, at home or in your office—there are now no limitations to completing your BridgeFront education.

Start and Complete Courses On Any Device:

Whether you're taking your course on a PC at home, then want to complete the course where you left off on your cell phone; it's all possible with BridgeFront mobile learning. No matter the device, a PC, tablet or smartphone, start and complete the course anytime.

Ideal for an On-the-Go Workforce:

If you're balancing your work and personal schedule the way most professionals, BridgeFront's mobile learning can put hours back into your day. Now you can complete courses anytime, from any internet-connected mobile device such as a smartphone and tablet.

About BridgeFront:

Effective, customizable and cost-effective; BridgeFront helps healthcare, government and businesses provide the highest quality of staff education. You have the flexibility to take any online course as-is or modify it, and even build your own courses. For over ten years, BridgeFront has provided engaging online education on compliance, revenue cycle, patient communications, clinical, leadership and now ICD-10.

Features & Benefits:

Automatic Bookmarking On Any Device—Automatic bookmarking enables you to start on one device (e.g. your cell phone) and finish on another device (e.g. your home computer).

No Limitations—Whether you have time on your bus ride, in the evenings at home...now there are no limitations as to where you can complete your training.

Available Online 24/7—With nothing to install or maintain, all mobile courses are available from any internet-connected smartphone or computer 24/7.

Always Up-to-Date—Because the mobile courses are online, this ensures you always have the most up-to-date version when critical updates occur.

Ideal for Refresher Material—Mobile learning is great for employees that simply need a refresher on material such as HIPAA.

Certificates—Printable "Certificates of Mastery" are still available once the course and test (if available) has been passed.

Management Reporting—Easily view and create custom employee course status reports every step of the way.

"We have been partnered with BridgeFront for 4 years now, and the delivery of their education just keeps getting better ; I just love the flexibility of their platform."
