year 2011.

## Community Partners:

Hospitals 57  
Nursing homes, long  
term care and  
assisted living  
facilities 501

Pathways is your not-for-profit, community partner.  
We're 35 years old now—and still growing!

- **Pathways' Mission** is to provide compassionate, high quality patient and family-centered, home health and hospice care, promoting comfort, independence and dignity.
- Over the years more than **2,000 physicians** in the Bay Area have entrusted their patients to Pathways.
- We are unique in the Bay Area in that we have **three service lines**: a Hospice for those with life-limiting illness; a Home Health program to care for people after surgery or with wounds or chronic illness; and Private Duty to make caregivers available to those who want to hire help at home.
- Our **specialty programs** include IV therapy; Pathways KIDS for children with life-limiting illness; Palliative Care; specialized cardiac care; PATH: Pharmacy Assisted Transition to Home; wound care; rehabilitation; HARP: Housecall Admission Reduction Program to reduce the need to be re-admitted to a hospital; and integrative therapies holistic care for hospice patients.
- Pathways receives support from our **Foundation**. The foundation received 12,543 gifts in the last year from generous donors to support the premier care that Pathways provides.
- **Bereavement outreach** to the community in fiscal year 2011 resulted in 14,500 bereavement contacts through calls, visits and 424 support group sessions. We open our bereavement support to anyone in the community in need.
