## **Milgard Windows & Doors Expands the Style Line™ Series Window Line with the Addition of Awning and Casement Styles**

**TACOMA, WA (February 14, 2012)** – Milgard Windows & Doors is expanding its Style Line™ Series vinyl windows with the addition of two new window styles. Awning and casement window styles are now available, along with picture windows, horizontal sliders, single hung windows, radius/arch windows, and sliding glass patio doors.

The Style Line Series by Milgard is one of the most popular products for homeowners looking to upgrade existing windows because of its ease of installation, low maintenance, and energy efficiency. Style Line is also a favorite of builders and architects of multi-family projects because of its value and design flexibility. Whether it's used as a one-window replacement project or specified for a large multi-family construction project, Style Line stands alone as the best valued vinyl window with the most premium features.

The Style Line Series includes a number of premium features not typically found in this category of window. Style Line Series vinyl windows and doors feature a narrower profile, making for sleek, contemporary lines and maximum glass area for better views. Style Line also comes standard with the Milgard® SunCoat® Low-E insulating glass for energy efficiency; the safety and security of our Positive Action lock; and numerous design options with grids, obscure glass and seven Premium Exterior Vinyl Finishes in addition to the standard colors white and tan.

Style Line is also covered by the industry-leading Full Lifetime Warranty that covers every properly installed window and door for as long as the homeowner owns their home—including materials and labor. This fully transferrable warranty applies to owner-occupied multi-family dwellings as well. Our Commercial warranty provides similar outstanding coverage for business applications.
