JAMS Job Scheduler Adds New PeopleSoft Adaptor

JAMS 5.4 manages processes and tasks running in PeopleSoft Process Scheduler and enables users to integrate PeopleSoft processes into enterprise workflows.

13 February 2012 – MVP Systems Software, Inc., a leading provider of enterprise job scheduling and workload automation software, announced today that it has released JAMS Job Scheduler 5.4 which includes a new and improved PeopleSoft adaptor. The JAMS Adaptor for PeopleSoft enables JAMS to seamlessly integrate with PeopleSoft Process Scheduler.

The JAMS Adaptor for PeopleSoft enables users to incorporate PeopleSoft job scheduling into larger, more complex workflows and job chains. By managing the entire business process using JAMS, costs of managing disparate applications and processes are reduced and, at the same time, resources are better leveraged.

By leveraging the JAMS Adaptor for PeopleSoft, organizations deploying ERP and HR systems avoid the limitations and restrictions of PeopleSoft Process Scheduler. With JAMS 5.4, users can automate entire processes associated with FTP uploads and exporting of key data types into and out of PeopleSoft rather than relying on custom scripting or manual intervention.

“Our existing PeopleSoft clients will see an immediate impact on their bottom line as they consolidate their PeopleSoft job scheduling together with their overall enterprise job scheduling,” states David Kluskiewicz, VP Marketing at MVP. “Centralized control and standardized job scheduling processes will reduce costs and significantly improve the efficiency of the organization.”

About JAMS

JAMS is the only job scheduling system built on a .NET framework and is the first enterprise job scheduling system that can be leveraged by both IT Operations Personnel and Application Developers. With its roots in Windows, JAMS also supports running processes across a variety of operating systems (UNIX, Linux, System i, OpenVMS, etc.) and applications (PeopleSoft, SAP, SQL, Oracle, Symitar, Ecometry, etc.) To learn more about JAMS, please visit www.JAMSScheduler.com or call 800-261-JAMS.
