

Panasonic AC160 Camera Course Delivers World Exclusive Final Cut Pro X Training

Los Angeles, CA ([PRWEB](#)) April 16, 2012 -- Call Box's newest training course brings production tips and tricks to owners of the Panasonic AC160 camcorder with groundbreaking post-production workflows in both Final Cut Pro 7 and Final Cut Pro X.

Now available at: [Panasonic AC160 Guide](#).

Call Box, a leading provider of interactive training for digital media professionals and filmmakers, has released its latest training course worldwide, "Panasonic AC160 Guide."

About the Panasonic AC160 Guide

Created by Apple Certified Pro instructor Noah Kadner, this training course takes viewers through the usage of the AC160 camera in production and post-production. "Panasonic AC160 Guide" features original content broken down into learning modules with interactive demonstrations and easy to understand, real-world examples. The course offers a complete review of the camera's functions and field operation coupled with a comprehensive post-production workflow featuring Final Cut Pro 7 and X.

"The Panasonic AC160 is the state-of-the-art in affordable, professional AVCHD high-definition camcorders," says Kadner. "Armed with this course, camera owners can get to know their camera like a pro and greatly shorten the amount of time to get up to speed shooting great looking footage. You'll learn every inch of the camera and how to get the most out of it in post-production."

In addition to camera settings and lens recommendations, the Panasonic AC160 Guide also offers world-exclusive tips for both Final Cut Pro 7 and X. "This is an exciting, transitional time for Final Cut Pro — some editors are diving right into X while others continue working with 7," observes Kadner. "Unlike courses which focus only on one or the other version; we've got the

exclusive course giving you the parallel workflow in both. So, whether you're using 7, X or thinking of making the leap, we've got you totally covered with the AC160 Guide."

Topics include Technical Overview, Menu Tours, Button Tours, Quick First Shot Setup, Scene Files, AVCHD workflow, SDHC/SDXC Card Management, Variable Frame Rates, Exposure Modes, Format Guidance, Final Cut Pro 7 Workflow, Final Cut Pro X Workflow, Digital Asset Management and Archiving, Outputting for Film, TV, DVD, Online and more.

Pricing and Availability

"Panasonic AC160 Guide," is now available on as a high-definition digital download compatible with iPad, iPhone, Android, Windows and OS X and is priced at \$34.99 (US). It can be purchased directly from the company at <http://www.callboxlive.com/products/panasonic-ac130-ac160-guide>

About Call Box

Call Box Inc., headquartered in Los Angeles, CA, is a training software developer specializing in post-production products for the digital producer industry. Call Box was founded in 2006 and has leveraged strategic partnerships with key digital filmmaker training specialists such as Philip Bloom and Barry Green.

In addition to being an Apple Certified Trainer in Final Cut Pro 7 and X, Noah Kadner administers several online filmmaking forums including 2-pop, Creative Cow and DVXuser.com and is the owner of Call Box. Noah wrote "RED: The Ultimate Guide to Using the Revolutionary Camera" a 360-page book for Peachpit Press. He also wrote about Disney's "Tron: Legacy" and "Prom" for American Cinematographer magazine and is considered a leading expert in digital filmmaking and post-production workflows.
