

Your customers are searching,  
we'll help them find you

HOTEL LINK SOLUTIONS

# The traveller of today ...and tomorrow

- looks for the official hotel website
- compares prices on various booking channels
- reads reviews on third party sites
- wants to book online instantly with a credit card
- uses social media to find out more

Travellers are online...

Where are you?

# Does your current website...

- Have instant booking functionality?
- Enable you to control what channels are selling your rooms?
- Enable you to edit content and room rates instantly yourself?
- Have high quality photo, video, and written content?
- Rank well in general online searches for hotels in your destination?

# Things you should know...

## What is Channel Management?

Channel Management allows you to keep all your inventory in one system so that other online distributors can pull your rooms from the same place. This allows you to reach a wider market with your hotel's rooms with an easy to manage system.

## What is a Content Management System?

A Content Management System, or CMS, is a web application designed to make it easy for non-technical users to add, edit and manage a website.

CUSTOMIZE IT

Get started with the basic hotel website, which is ideal for accommodations that don't have a website or have an outdated website. You could use your own booking engine, or use a simple form to receive enquires from travelers. From here, you can easily upgrade to add on our booking engine or channel management options.

## Booking Engine

## Distribution

## Social Media

CUSTOMIZE IT

**BOOK NOW**

If you have a website, but want to add a booking facility to receive online bookings; our booking widget is the option for you. You can keep using the website you already operate, but improve it with a professional booking engine/payment gateway that can be integrated into the websites. This includes the Booking Engine to manage and process all your bookings.
