PRESS RELEASE

FOR IMMEDIATE RELEASE

FreeMBB.com Launches Affordable & Effective Online Lean Six Sigma Training & Certification

Red Oak, TX February 16, 2012 – FreeMBB.com proudly announces its online Lean Six Sigma training and certification programs. Lean Six Sigma is a step-by-step, management approach that helps companies save time, save money, improve quality, and improve customer satisfaction.

Key features of FreeMBB.com's online training are:

- Easily affordable, superior, and results-based training at a fraction of the cost of ineffective trainings that cost up to $32K
- Requires no time away from work for extended periods
- Effective, allowing adult learners to immediately apply the Lean Six Sigma tools and implement quick improvements within companies
- Features a step-by-step guidance that expedites project completion times and increases project completion rates
- Contains animated and narrated lessons, with practical activities that cater to all adult-learning styles
- Includes optional discussion forums that facilitate enhanced learning, as learners communicate and learn from each other's experiences
- Available anytime that is convenient to the learner

About FreeMBB.com:

FreeMBB.com is wholly-owned by the Johnson advantEDge Institute, which provides educational services for schools, companies, governments, and individuals. FreeMBB.com is led by Dr. Janice M. Johnson.
