

HELPING CHILDREN WORLDWIDE

Mercy Hospital: *Saving Lives, Building Hope*

In Sierra Leone: 1 in **5** children will not live to see their 5th birthday.
1 in **21** women will die giving birth to a child.

MERCY IS...

Mercy can help.

- a 26 bed primary care hospital in Bo, Sierra Leone, with a trained and dedicated medical staff, a research laboratory, and a fully stocked pharmacy supplied with pure, reliable medications, providing care to 900 patients a month, regardless of their ability to pay.
- a vital component to the community in Bo, providing emergency care, inpatient and outpatient care, and blood transfusions at the hospital, while at the same time providing community educational programs for HIV/AIDS, malaria, prenatal care, and nutrition, taking the services of Mercy out into the villages to thousands of people every year.

MERCY CAN...

- prevent mother to child transmission of HIV and AIDS.
- decrease the prevalence of malaria in a community by over 40%.
- achieve a measurable decrease in the infant and maternal mortality rates in Sierra Leone by providing holistic, community focused care, regardless of ability to pay.
- make a difference in the lives of the people of Sierra Leone.

HOW YOU CAN HELP...

- visit www.helpingchildrenworldwide.org to learn more about Mercy Hospital and how you can be a part of this ministry.

*What does the LORD require of you?
But to do justice, and to love mercy,
and to walk humbly with your God.*
