## Are you DoD 8570.01-M directive compliant?

Secure Ninja can help you meet all of your DoD 8570.01-M training and management needs. Get your IA staff trained and certified protecting your critical assets while also getting your organization compliant.

## Choose training the way you want it!

Secure Ninja recognizes that people learn in different ways and has created training programs that reflect this multi-disciplinary approach offering several paths to professional training and certification:

- **Instructor-led training** at one of our scheduled training & certification events. Our state of the art training facility and headquarters is conveniently located in Washington, DC is metro accessible and only 4 minutes from Ronald Reagan National Airport. Secure Ninja's San Diego Training location is located in downtown San Diego and closest to the Naval Bases.
- **Live Online classes** offer the same training as our classroom-based instruction, right from your own desktop and without the need for travel and hotel accommodations.
- **On-site Training.** Have a group of 6 or more? We can come to you with dedicated customized classes at significant discounts where you dictate the dates, location, subjects and price.
- **Personal 1 on 1 Mentoring** For students who would like to have a custom schedule / curriculum, or who would like to have a personalized training program, Secure Ninja's 1 on 1 mentoring service will partner one of our expert technical instructors with the student.

## At Secure Ninja you learn from superior expert IA instructors

Secure Ninja's world renowned expert instructors are all information security experts dedicated the professionalization of the information security officer. They are highly sought after leading practitioners in the field that contribute to national security policy and frequently speak at FISMA, NIST, DHS and industry related events.

## Need an IV&V security assessment or pen test?

Secure Ninja services/consulting specialize in governance, risk and compliance programs for government agencies including information assurance, IV&V security assessments, and cyber-security solutions. Secure Ninja has the knowledge and experience to keep your sensitive information safe.
