

Better claims results. Exceptional perspective.

A new vision for claims

Stratose (formerly Coalition America) provides unique cost containment services for medical, dental and workers' compensation claims. We drill deeper than the typical in- vs. out-of-network view to evaluate opportunities for savings on all claims. Since 1995, we have saved our clients over \$10 billion.

We know what works, what doesn't and what just might make the difference for breakthrough claims savings.

Network scope delivers unmatched savings

Insurance payors now have access to the collective value of all of our networks through the Stratose Networks division.

- 850,000 direct and affiliate contracts with medical, dental and workers' compensation providers
- Faster processing and simplified administration for payors
- Extraordinary insights based on business intelligence and reporting
- Creative solutions, like our industry-first dental cost

Savings comes from strategic thinking

The Stratose Services division offers specialty support to deliver savings for our clients.

- Our experts skillfully evaluate specialty and high-value claims for savings opportunities
- Leveraging analytics to provide payors with the business intelligence needed to inform strategic decisions
- Reviews of cost data and service patterns to identify possible savings
- Pricing logic for customized benchmark pricing programs

Technical innovations are the foundation of our business

Our standard-setting technology enables our process, from data collection to reporting to compliance.

- Proprietary Established Reimbursement Schedule (ERS) gives payors the most accurate context for payment decisions
- Online applications for real-time reporting and analytics: RepriceNow, ClientsOnly

See what Stratose can do for you.
