#### THE PARADIES SHOPS

National airport retailer operating multiple differing store concepts and brands, precluding floor covering standardization.

"The Paradies Shops operates more than 500 stores in over 70 airports and hotels across the United States and Canada. These stores include original, one-of-a-kind brands unique to individual airports, as well as national brands such as Brooks Brothers, Brighton Collectibles, CNBC News, New York Times Books and many more."

"Storefloors is a true partner I trust and rely on for every project. I always count on them to source, specify and supply the best product for the application numerous architects and designers envision while keeping The Paradies Shops interest in the forefront. I have nominated Storefloors to be my vendor of the year the last two years in a row mainly due their stellar customer service and plain good business sense."
